NEW

VACCINATIONS & IMMUNISATIONS

We are delighted to be able to bring Vaccination and Immunisation training to our member practices. Obtaining training for new starters and also annual updates for experienced clinicians has proved difficult for some of you recently. We have teamed up with an experienced trainer who receives excellent feedback from delegates and she will be providing a 2 day Introduction course for nurses and health care assistants in June as well as annual update courses. Further dates for the rest of the year have yet to be confirmed but please visit our [website](#) for current details.
